

ENHANCE & AMPLIFY YOUR IMMUNO STAINS

**WITH NO ADDITIONAL STEPS!!!**

Want to add a turbo boost to your immunos  
with no additional steps?

USE

## **SIGNAL ENHANCING WASH BUFFER**

throughout your staining procedure and...

-  **Amplify your staining signal by 2 to 4 fold!** (Great for Ab that have weaker staining signal)
-  **Save Time!** (Decrease incubation times of primary antibody & chromogen/substrate)
-  **Save Money!** (Allows 2-4 fold increase in antibody dilution)
-  **Faster Autostainer Runs!** (Replace your PBS station with this and reduce your run times)

**IF THIS GOT ANY EASIER, IT WOULDN'T BE CALLED WORK!**
